

Renowned Design Agency Seeks Innovative Design Manager

Are you an exceptional hands-on product designer thinking about your next career move? Does the idea of joining the fastest growing product and packaging design agency excite you? Do you thrive in the fast-paced environment of a creative consultancy? Are you currently generating creative solutions for big brand project challenges? Do you have a portfolio which demonstrates successful product launches showcasing your design thinking, creative exploration and exceptional artistic talent?

If this describes you and you're excited by the challenge of designing for an agency that works with the world's top companies and best known brands and have been thinking about the benefits and beauty of working in Fairfield County, please contact us immediately to be considered for this important position.

Qualifications:

- Bachelor's degree in Industrial Design (required)
- Exceptional creative thinker and visual communicator
- Managerial prowess for mentoring creative and technical team members
- Diverse experience across a multitude of categories and manufacturing processes
- 7+ years working as an industrial designer
- 3+ years managing a design staff of at least 3 people
- Expert sketching and rendering skills
- Highly organized and capable multi-tasker
- Able to persuasively present design concepts to clients
- Directs CAD and prototyping ensuring accurate embodiment and execution of design
- Fluent in relevant software (Photoshop, Illustrator, In-design, Hypershot, Rhino) and PowerPoint
- Longevity in past employment

Product Ventures is experiencing phenomenal growth in all areas of the company and continues to focus on expanding their design teams. It is a very exciting time to become a part of this dynamic agency. The Design Manager position is an excellent opportunity for the right candidate, one who is highly skilled in visual communication and creative thinking.
